	spaces used Fidenza, squares, streets, yards
description	<p>fair ENERGIAMBIENTE 2009 biennial meeting on how education for sustainability, arrived in 2009 in its fourth edition, is a "showcase" was born from the network Breathe organized in collaboration with the Province of Parma, City of Fidenza and Solidarity Forum. The numbers:</p> <p>The 51 institutions involved: 42 different proposals whose themes have covered all environmental matrices: water, waste, air, biodiversity, geology, nutrition, health, best practices, sustainable technologies, energy, flora and fauna, climate change, repeated for a total of 210 offers workshops for schools 2,500 students involved 20 events are developed which saw the participation of about 500 people</p> <p>9 The municipalities directly interested in the event Parma, Fidenza, Salsomaggiore, Trecasali, Polesine, Traversetolo, Sassuolo, Sala Baganza, San Secondo.</p> <p>· Cost involved: 11.79 € / person</p>
teaching methodology	Experimental workshops run by kids, associations reality of the territory, training seminars for teachers, information and cultural moments epr citizenship: presentation books, films, conferences
experimental approach e yes/NO	Yes, mentoring workshops on environmental issues
results	Strong involvement and enthusiasm of the territory that has achieved interesting results with relatively small numbers.

Critical

The difficulty of many schools to follow jobs that are not only educational and related to a

classic trail of environmental education, and work together.

- Difficulty in moving and planning time / space of actions by schools, in a project like this the respect of the times and deadlines is essential

- The message I get is not always clear and therefore are consuming too many direct contacts and

Tired

- It is a constant and varied work that lasts a whole year between contacts logistics organization and action

direct, and this continuity often undermines schools whose time is very close to the times

schools: the month of the trips, the month of the ballots, the month of insertion.
